

Company Profile

As an industry leader in spring products and services, HS Spring is the natural choice for producing springs and spring assemblies. Springs are the basis of a wide variety of industrial, commercial and consumer products. We specialize in developing and manufacturing constant force springs, counter balance springs, wire forms, slide-form parts, small stampings and assemblies. Our solutions are engineered for top performance and ensure added value for the customer.

We provide our customers with unique prototyping, product development and scalable solutions. Our innovative engineering team will work closely with you from concept through production to ensure that we provide the exact product you need. From quoting, to order processing, to prototyping, to manufacturing, to delivery, service is the top priority for the entire staff.

HS Spring also develops and manufactures special products for point-of-purchase merchandising and shelf management in retail environments. Our systems are designed to maintain retail shelves in an organized, attractive and efficient manner, securely tether products and items without inconveniencing customers and employees or have easy access to posters and hanging visuals.

HS Spring has over 50 years of the proven experience and technical expertise needed to properly manage projects from start to finish:

- The most advanced CNC equipment to deliver higher levels of quality and reliability.
- Full in-house tooling capabilities.
- Metal forming and fabricating including slide and wire forming, presses for small and medium stamping, riveting, stress relieving, spring grinding and assembly capabilities.
- Finishing such as grease and other lubricants, fluorocarbon resins, phosphate and soap, phosphate and oil, dyes, paints and e-coat.
- From short runs to complex, high-volume jobs, your project benefits from the advancements made possible by our research and development professionals.
- Serving the global market with clients in Europe, the Pacific Rim, India and Mexico.
- Quality certifications include QS 9000 and ISO 9001:2002.

HS Spring has manufacturing facilities in facilities in Louisville, Kentucky; Toronto, Ontario and Jefferson, Ohio. HS Spring's executive offices are headquartered in Louisville, Kentucky. Our experienced Account and Technical Service Managers are located in several areas in or near Chicago, Cleveland, Detroit, Louisville, Memphis and Toronto so we can be there when you need us.
